FTX148L Track Carrier

The FTX148-L: A purpose-built combination of size & performance for the mulching professional that wants big-machine value in a compact machine.

- *Fecon Power Management* maximizes performance of a Bull Hog or Stump Hog.
- Component selection from recognized suppliers including Caterpillar, Sunstrand, and Bonfiglioi.
- Ergonomically designed for full-time contractors. Enjoy the comfort of a big-machine cab with side-door entry on this compact and easily transported tractor.
- Profit from the loader arm advantage with reach and versatility for more attachments such as a tree shear or rotating grapple.
- Gain fast access to service points from the sides, rear, top, or tilting cab.
- Work in soft conditions with the low ground pressure characteristics and 3 different undercarriage options.

Capitalize on almost twice the performance of a typical skidsteer while being only slightly larger in size for transportability, tight work spaces, and low ground pressure. Achieve more revenue per day with the FTX148-L, from Fecon.

DIMENSIONS	
Weight of tractor only	13,360 lbs.
Weight of tractor with BH74SS	15,940 lbs.
Length of tractor with Quick Attach Plate	164"
Length of tractor with BH74SS	201"
Height Overall	99"
Width At Tracks (Cross Link Track)	72"
Width Overall	74"
Travel Speed	1-6 mph
Ground Pressure (Cross-Link Track)	4.5
ENGINE	
Make	Caterpillar
Model	C 4.4
Horsepower	142
Cooling	water
Fuel Tank	46 gal.
Air Cleaner	Dry Type Dual Element
HYDRAULIC SYSTEM	
System Pressure	6000 psi
High Flow	61 gpm
Low Flow	26 gpm

PROUDLY MADE IN THE USA
