■ Installation

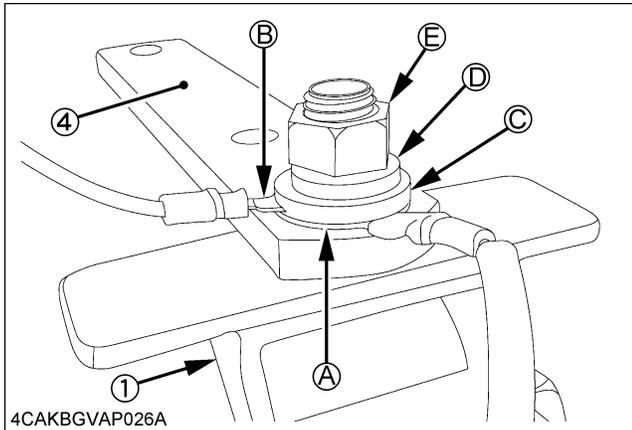

WARNING

To avoid personal injury or death:

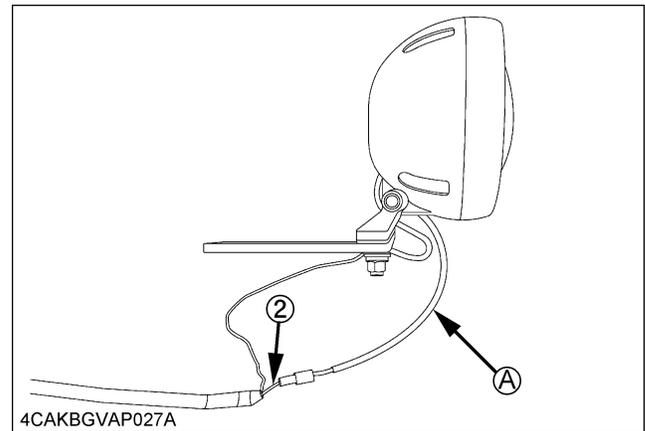

- Park the machine on firm and level surface.
- Lower the implement to the ground.
- Apply the parking brake.
- Stop the engine and remove the key.
- Battery gases can explode. Keep cigarettes, sparks, and flames away from battery.
- If the machine battery is frozen, do not jump start the engine.
- Do not connect the other end of negative jumper cable to the negative terminal of the machine battery.

1. Disconnect the negative cable from the battery.
2. Remove the nut, washer, spring washer and ring terminal from the work light.
3. Assemble the work lamp and the working light plate with the original nut, plain washer, spring washer and ring terminals.
